EDUCATION

Muthoot Institute of Technology and Science, Kochi,   11/2020 – 06/2024
B.Tech: Computer Science and Artificial Intelligence   Kochi, Kerala, India
   CGPA: 7.34

SKILLS

Python	- Java	- C
- Machine Learning	- Cloud computing	- Azure
- HTML	- CSS	- SQL

PROJECTS

Deep Learning Enhanced Image Steganography,   08/2023 – 05/2024
final year course project
- Developed an AutoEncoder model based image steganography system that is capable of hiding one image within another and also decoding the hidden image from the encoded stego-image.
- AutoEncoder | DL | Tensorflow | Python

Smart Attendance System using Face Recognition, *mini project*   01/2023 – 06/2023
- Successfully completed building a smart attendance system that employs face recognition on students, to auto-record attendance and store it in database.
- ML | CNN | OpenCV | Python | MySQL | Tkinter

Food Delivery ETA prediction system   07/2024 – 08/2024
- Designed and coded a ETA prediction system that predicts the Estimated time for arrival for food deliveries.
- Python | RandomForest Regressor | ML

CERTIFICATES

Microsoft Certified: Azure Fundamentals (AZ-900)

Foundation Of Cloud IOT edge ML - NPTEL

Data Science For Engineers - NPTEL

Business English Certificate - Cambridge University

Python For Everyone: Add on course
